**Dear Neighbor,**

I've lived in Kalamazoo County nearly all my life, and I've been **helping to improve the health of its residents** as a physical therapist for my entire career.

In addition, **to help address our county's economic health**, I serve on two county boards focused on jobs and economic development. Without adequate employment opportunities, we cannot prosper as a community. As your county commissioner, **bringing in new jobs will be my top priority**.

As we do that, we'll also need to **protect our high quality of life**. Cleaning up blighted areas and protecting important recreational assets such as the Kal-Haven Trail and the Kalamazoo Valley River Trail should be high priorities.

No one can anticipate all the issues that will face the next county commission. But I believe **taking an independent approach while remaining responsive** to my constituents is the sensible course. With that approach I believe **I can make a difference** for the residents of Alamo, Oshtemo and Kalamazoo Townships and all the citizens of Kalamazoo County.

Sincerely,

**Julie M. Rogers**
